Service Broker feature is not supported in Azure SQL Database

Partially-supported features (0)

Target Platform
Azure SQL Database
127.0.0.1 / SQL Server 2016

Service Broker feature is not supported in Azure SQL Database

Details

Impact
SQL Server Service Broker provides native support for messaging and queuing applications in the SQL Server Database Engine. Service Broker feature is not supported in Azure SQL Database.

Recommendation
Service Broker feature is not supported in Azure SQL Database. Consider migrating to Azure SQL Managed instance that supports service broker within the same instance. Alternatively, migrate to SQL Server on Azure Virtual Machine.
